Local County or Tribal Agency: Yellow Medicine County Family Service Center	
Person Responsible for Development of the Health Care Access Services Biennial Plan: Robin Schoep, Financial Assistance Supervisor	Telephone Number: (320) 564-2211
Person Responsible for Coordination of Health Care Non-Emergency Medical Transportation and Related Ancillary Services: Robin Schoep, Financial Assistance Supervisor	Telephone Number: (320) 564-2211

General Purpose Statement

To ensure that applicants/recipients of Medical Assistance (MA), and MinnesotaCare pregnant women and children under 19 years of age are provided with or reimbursed for the appropriate level of needed transportation and other travel related expenses to enable them to access necessary medical treatment. Local county and tribal agency non-emergency medical transportation (NEMT) services are available to transport the recipient to and from medically necessary services received from participating providers of covered services under the MA and MinnesotaCare programs.

Local County and Tribal Agencies are required to comply with all the requirements found in law and in the [MHCP manual](#).

Transportation to non-participating health care providers shall also be paid under this plan if:

- The medically necessary service is covered under the MA state plan; and
- The non-participating medical/dental provider could be a participating provider if an application was made; and
- The transport results in the proper, efficient, and cost-effective administration of Minnesota Health Care Programs services.

Cost Effectiveness

Per Federal Regulations, transportation for each trip made by a recipient must be by the most cost-effective means available that meets the needs of the recipient.

1. The local county/tribal agency must document or describe the method or process of establishing the “least costly” appropriate method of transportation.
2. The local county/tribal agency must document or describe the process used in establishing the appropriate level of transport and related ancillary services approved, authorized, or denied to the recipient.
3. The local county and tribal agencies shall direct recipients to utilize all available sources of free transportation services (such as relatives, friends, other public options if available) if it meets the needs of the recipient.
4. The next most cost-effective means of transportation under this plan is transport by the recipient's vehicle. Includes vehicles provided by other individuals with a “vested interest” in the recipient.

5. Reimbursement will not be made to a recipient or other person if the mode of transportation used or related travel expenses are furnished at no cost to the recipient.
6. Transport for a covered medical service that is obtained from a primary care provider is limited to 30 miles from the recipient's home/residence for local county/tribal agency and state administered NEMT.
7. Transport for a covered medical service obtained from a specialty care provider is limited to 60 miles from the recipient's home/residence for local county/tribal agency and state administered NEMT.
8. Prior authorization to exceed the 30 or 60 mile transport limits for all NEMT must:
 - Be requested by the MHCP recipient for review by the local county or tribal agency;
 - Be authorized or denied by the local county or tribal agency;
 - Be based on medical necessity with no other provider capable of providing the level of care needed closer than the requested destination provider location, and
 - Must be documented and documentation maintained as part of the transportation record by the local county or tribal agency.
9. Reimbursement will not be made for trips/mileage traveled without a recipient in the vehicle (no load miles).

Part 1. Transportation and Related Travel Costs

Recipients/applicants must use the most cost-effective method of transportation available to them. Whenever appropriate, the recipient's own vehicle must be used.

Transportation and related ancillary service costs that would otherwise require receipts for reimbursements do apply in the emergency situations.

The bill should include date of service, origination (pick-up) and destination (drop-off) points, and mileage by the most direct route. When the recipient's attending physician makes a referral or the recipient requests transport to a medical provider location not within the 30/60 mile transport limits or is not the closest provider capable of providing the level of care beyond the mileage limits, prior authorization by the county/tribal agency for transport and ancillary services should not be made.

Prior authorization to incur transportation and related ancillary services costs from the county/tribe is required for:

1. *Lodging and meal expenses* for an MA recipient and/or responsible person accompanying the MA recipient

2. When the agency *has determined transportation and ancillary services have been misused*. Example: An able-bodied individual living at a location with access to a public bus route uses a taxicab rather than the bus to access medical services available by bus transport.

County and tribal local agency administered and State administered non-emergency medical transportation (NEMT) and related ancillary services for the MA fee-for service recipient is limited to a Primary Care Provider within 30 miles of the recipient's home and Specialty Care Provider within 60 miles of the recipient's home. All fee-for-service NEMT transports and related ancillary services beyond the respective 30/60 mile distances REQUIRE prior authorization by Yellow Medicine County Family Service Center. Authorization is based on medical necessity and having no provider capable of providing the level of care needed within the mileage limits or a provider closer than the provider location requested.

For the MA fee-for-service recipient, authorization for state administered non-emergency medical transportation and related ancillary service beyond the respective 30 or 60 mile distances must be obtained by the recipient from the local county/tribal agency. Authorization is based on medical necessity and having no provider capable of providing the level of care needed within the mileage limits or a provider closer than the provider location requested.

Health Plan recipients must access primary care services from a provider within 30 miles of their residence and specialty care services within 60 miles of their residence. Authorization for transport and related ancillary services provided and reimbursed by the county or tribal local agency to a provider location exceeding the respective distances, must be obtained by the recipient from the local county/tribal agency. Prior authorization is based on referral by the health plan for the recipient to access covered medical services from the provider at the specific location requested.

B. Emergency Needs Procedure

Prior authorization to incur NEMT and related ancillary services costs is not required for emergency situations. In emergency situations, recipients/applicants must secure transportation and related expenses, using the most cost effective and medically appropriate transportation method and related ancillary services. Recipients/applicants are required to notify the local county or tribal agency immediately after the emergency to secure consideration of reimbursement for the expenses. Appropriate receipts are required.

Part VII. Notification to MA Recipients of Health Care Access Services

1. The local county or tribal agency shall inform recipient of the Health Care Access transportation plan. Applicants must be informed of available services at the time of application and recertification. They must also be made aware of changes to the non-emergency medical transportation (NEMT) or related ancillary services benefits, reimbursements, coverage, policies and procedures made by the local agency, due to federal action, adjustments to state statute/rule or administrative decisions by the Minnesota Department of Human Services (DHS).

What is the process or procedures of the local agency for informing the recipients or responsible person of changes to the access plan, local agency processes, procedures, rates, documentation, etc. at times other than application and recertification?

Recipients are informed of changes to the Health Care Access Plan. The updated plan will be posted on the agency website, changes will be reviewed when a recipient contacts the agency regarding access services, and an updated *Notice of Access Services Availability to Eligible Minnesota Health Care Program Recipients* will be sent when access services are initially requested after a change and at recertification.

What is the process of informing the recipient or responsible person of the access plan benefits and policies or procedures when eligibility is established through the MnSure process?

Recipients approved for Health Care Programs through MnSure are mailed a *Notice of Access Services Availability to Eligible Minnesota Health Care Program Recipients* upon initial approval and at recertification. Cases are identified through available monthly reports.

2. **Include with your Biennial Access Plan submission** a copy of all documents given to applicants and/or recipients informing them of NEMT and related ancillary service availability. Include the Local County/Tribal Agency Insert version of “*Attachments B – Notice to Recipients*”, include other documents provided to the recipients/responsible person for access plan administration.
3. **Local County and Tribal agency must ensure the correct information is on Trip Logs. Trip logs must meet all the requirements found in law.**

Part VIII. Other County/Tribe Specific Policies, Procedures and Conditions

What are the identified gaps, issues, and/or barriers for transportation services in your area?

Not paying for no-load miles is an issue in rural Minnesota. Volunteer drivers must often travel from another community resulting in substantial miles traveled prior to pick-up and after drop-off of the health care recipient, and these miles are not reimbursable. Yellow Medicine County must cover no-load miles out of county funds in order to provide this service.

Limited availability of volunteer drivers is also an issue.

What coordination efforts is the county/tribal agency involved in to provide transportation services to its members such as Regional Transportation Planning initiatives?

Yellow Medicine County, in conjunction with 4 other counties, participates in the Prairie V RIDES

program. Besides organizing volunteer drivers, this organization also manages small buses to bring groups of people to a larger community in one trip. When possible, they try to use this system for medical transportation, but timing of appointments, physical conditions following medical care, etc. often make this option impossible to use.

In the space below, please communicate any policies and procedures not covered in the Biennial Access Plan Bulletin and attachment documents that reflect county/tribal agency administration of Access Services.

All requests for reimbursement under any of the above sections must be submitted to Yellow Medicine County Family Service Center within 3 months of being incurred, or in the case of applicants, within 3 months of receiving a Health Care Program approval notice. Requests received later than 3 months after the date of being incurred will be denied unless the client can document extenuating circumstances.

Part IX. Outside Provider Contracting

Counties/tribes entering into a contract with an **outside organization/provider** for providing transportation service(s) or coordination activities for county/tribal administered NEMT provided to/for the MHCP recipient **MUST** submit to DHS:

1. A copy of the *ALL contract(s) with outside entities* related to county/tribal administered NEMT
2. A statement of the *per trip rate(s)* or administration fee paid to the provider/coordinator
3. Documentation to *show how the rates for transport or administrative fees were established*

Counties/tribes utilizing an outside provider/coordinator to provide access transportation or administration should not enter into such contracts and provide reimbursement until they have submitted their contract(s) to DHS for review of program policy and procedure consistency. Issues will be addressed.

Local County or Tribal Agencies are required to send contracts electronically to: jamie.barry@state.mn.us

➤ **No paper copies will be accepted.**
