Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

Our inspection goal was to inspect seven sites within the Lac qui Parle 1W1P priority areas and 3 sites within the YM 1W1P priority areas. Of the sites inspected, seven were within the LqP and three were within the YM priority areas. Another one of our goals was to inspect three feedlots that have never been inspected, we exceeded our goal and of the 18 feedlots inspected, nine had never been inspected. We also inspected seven sites that had open lots without runoff controls, our goal was three sites.
